PROFESSIONAL EXPERIENCE

vPromos, Inc.   *Intern*   June 2017 – February 2020
Dallas, TX

- Design and implemented Native Android app for POS terminals called vTerminal
- Supported implementation of key features in vTerminal such as running transaction sales and provide a loyalty program service
- Integrated POS terminal app with open source Floreant POS through websockets
- Assisted team in resolving bugs in the Android applications.

ACADEMIC PROJECTS

Workforce Planning Tool   August 2019 – December 2019

- Web application for HR employees to track the current workforce and plan to meet future needs.
- A spreadsheet-like simple tool, but a step ahead of current Excel solution with:
    - o Data value controls for consistency
    - o Real-time sharing of one database across users for coordination
    - o Data change logs for traceability and recoverability

PERSONAL PROJECTS

Vidly App (https://immense-ravine-62326.herokuapp.com/movies)   June 2020 – August 2020

- Movie rental service web application with features including:
    - o Registering/logging in users (Authentication)
    - o Admin user cabalities (Authorization)
    - o Pagination, sorting, and filtering of movies
    - o Rate, edit, add, delete movies
- Technologies/Frameworks used: React.js, Node.js, mongoDB, Heroku

LEADERSHIP EXPERIENCE

Family Bethel International   Dallas, TX   June 2018 – Present
Youth & Media Director

- Organize one-on-one and group sessions meetings with leaders and students
- Plan and oversee special events such as Youth camps and fundraisers associated with them.
- Recruit, train, schedule and oversee teams of volunteers for production and youth ministries
